

Petition

The fledgling Kirkland Citizens Association recently met to discuss By-law number 2011-52 adopted on September 12, 2011 at the Kirkland monthly Council meeting. The issue of the cross connection is one of the matters that the Association is following. The Association encourages ALL citizens of Kirkland to sign under this Petition. [Please contact KCA for details.](#)

At the Council meeting when questioned by a citizen of Kirkland to not pass the By-law 2011-52 until the general public at the meeting had a chance to make their opinions known, the Mayor and Council rejected this approach and suggested written recommendations be submitted to the council, to be considered at the October 03, 2011 meeting.

Our recommendations:

The City of Kirkland should accept the moral and political responsibility to assist the residents affected by the cross-connection problem in the same manner as Pierrefonds, Ste-Anne-de-Bellevue and Verdun (Nuns' Island) have responded to the same issue for their residents. 100% of the financial responsibility should be assumed by the City of Kirkland.

The undersigned residents support the above noted recommendations of the Kirkland Citizens Association and ask that the issue be resolved on that basis.

21-Sept-2011
